Md Abdul Qadir

Full Stack Web Developer

PROFESSIONAL SUMMARY

Experienced Full Stack Web Developer with expertise in JavaScript and the MERN stack. Skilled in RESTful API development and efficient MongoDB database modeling, translating project requirements into functional web applications. I excel in prompt engineering, mastering the Angular framework and leveraging ChatGPT conversation models to create innovative solutions, such as a project management app. My commitment to staying at the forefront of technology ensures a dynamic and effective approach to software development, delivering impactful user experiences.

PROJECTS

1. BRIKS99 | ⊕ | ⌨
